

## Sour Cream Crumb Donut

### Answer Key

1. You should only use one bowl for the recipe.

**B – False**

You want to have two bowls, one for wet ingredients and one for dry ingredients.

2. What does sour cream do to the donut?

**A – Makes it creamy**

Krispy Kreme sells a Glazed Sour Cream Donut! Yummy!

3. What unusual ingredient went in our wet ingredient bowl?

**D – Sugar**

Dissolving sugar in a liquid inhibits the gluten-forming proteins to make for a soft moist donut.

4. We want our batter to be...?

**C – Thick and Lumpy**

You don't want to overmix your donut batter, you want the consistency to stay thick and lumpy.

5. Ms. Taco's trick was to use baking spray with flour in it.

**A – True**

You can buy cooking spray that has flour in it, which helps your batter not stick to surfaces or pans!

6. The crumble should look just like...?

**D – Wet Sand**

You want your crumble to look like just that...crumbs! They will be lumpy and delicious and will look just like wet sand at the beach but taste MUCH better!
